G20

Introducing G20™. Advanced ergonomics.

G20 is available in standard Black Mesh or White Mesh back with your choice of seat upholstery.

G20™. Technically superb.

'Live' mesh is created from a woven web of elastomeric and ribbed yarns.

G20, designed by ITO Design (Germany), brings harmony between form and function. Cast aluminum and highly tooled nylon bring out delicate edge details and create a sharp profile.

Whether you lean back to swipe a tablet, or move forward to review project details, each task requires a different posture. A four position synchro-tilter control makes seat and tilt adjustments simple, with control levers at fingertip level. G20's unique lumbar tension system adjusts to pressure and body shape ensuring comfortable back support.
