

Robust™

Robust™

Robust is the perfect solution for generously proportioned people. It offers an active weight capacity up to 500lbs.

2526 Extended Back Heavy Duty Multi-Tilter with headrest

2527 Medium Back Heavy Duty Multi-Tilter

Robust was specifically designed for generously proportioned people who require ergonomically sound seating solutions and rugged durability. Each component was created to provide exceptional strength and tested to exceed normal seating standards so a larger user can be assured of its structural integrity, durability, safety and function.

Arms are made from steel, not plastic, bases are also steel and larger in diameter to provide extra stability, casters are far superior and the mechanism was specifically designed for this weight category. No stone was left unturned in seeking to provide larger users with an exceptional product that will stand the test of time, comfortably.

Robust™

Robust's unique two-tone fabric combination is standard. This upholstery technique makes the Robust series appear optically smaller than it would in one color. Trims along the edges of the seat and back will always be in "Black" Silhouette fabric (SL20 Asphalt)

and the remaining upholstery can be selected by the customer in one's personal choice of pattern and color. For 24 hour settings and high traffic areas, Global recommends selecting textiles that surpass 100,000 double rubs on the Wyzenbeek fabric durability tests.

Robust™

Robust, for users who require ergonomically sound seating solutions.

Outside back available with Ballistic Nylon for extra impact protection in high activity areas.

Standard with Ultracell high density, highly resilient foam for extra longevity and durability.

Steel back support upright is 3" wide and ¼" thick for extra durability and strength.

Extra wide back (headrest model also available).

Solid steel loop style arms, vinyl dipped for comfort are width adjustable up to 1.5" on each side allowing for space between arms from 25 ¼" to 28 ¼".

For extra comfort Robust features a contoured seat with extra padding and sewn seat borders.

Seat height control features Heavy Duty bariatric pneumatic cylinder rated for up to 750 lbs.

For infinite seat angle adjustment, rotate knob to change seat angle.

Back angle adjustment allows user to change back angle to suit body shape.

Tilt-lock control allows user to lock the chair's tilting action.

Side activated tilt-tension is easy to reach and adjust from a seated position.

Unique six-legged welded steel spider base ensures two legs are always behind user.

32" diameter Heavy Duty six leg base for increased weight capacity, stability and safety.

Large diameter 3" casters each rated for 225 lbs, provide easy mobility.

Active weight capacity is up to 500 lbs.
