# A fun chair that goes everywhere

Our Stream™ multitasker has a chic aesthetic that sets the bar for plastic seating. Expertly designed by Richard Douglas Rose and seamlessly detailed to the touch and eye from any angle. Designers compliment the matching arms, seating surfaces, under-seat shroud and glides available in 14 great colors.

Additional information can be found on the Global [website](#).

Seating shown in Scarlet with Chrome legs and Swap tables.

# Perfecting the sit experience

From a 10 minute chat with a colleague to a few hours in the classroom, a 'comfortable sit' is the defining ingredient that makes Stream a great all-rounder. Gentle anatomical contouring of the seat and back surfaces provides even support without creating pressure points or restricting movement. The perforations in the plastic surfaces provide airflow for additional comfort during longer sessions.

Seating shown in Cloud with Chrome and Tungsten legs. Upholstered seats and back shown in Maharam Manner, Ablaze.

---

## See the difference

Stream is available in a versatile and rich palette of 14 contemporary colors that speak to a wide range of workplace and educational environments. And the color doesn't stop with the seating surfaces. The glides, arms and under-seat shroud (on upholstered models) are color matched on every Stream chair. Just some of the little things that make a big difference.

## Suited to your task

Some tasks require constant movement. When the job involves getting in and out of your seat often, or moving from one station to another, multi-purpose chairs and height adjustable stools fit the bill. Choose from comfortable, fully upholstered chairs and durable plastic seat and back models.

Additional information can be found on the Global [website](#).

# Any way you stack it

Flex space is the day-to-day where people work and learn. Here is how Stream stacks up: unupholstered plastic models stack up to five high on the floor and 15 high on the dolly with an overall height that will safely clear a commercial door opening. Upholstered models, four-legged caster and glide models stack five high on the floor and 10 high on the dolly. All stools stack five high on the floor.

Seating shown in Scarlet with Chrome and Tungsten legs.

# Stream, a fast learner

Tablet arm models provide ample surface for laptops, tablets and traditional note-taking. The hinged tablet swings up and into position easily and slides backward and forward to give a comfortable fit. Tablet models are available for 'righties' and 'lefties' in both four-legged and sled base frame styles.

Backpack rack models available

Seating shown in Night with Black legs. Tablet shown in Noce Biondo.

# A star in the classroom

Meet the unique storage needs of educational settings with integrated backpack racks. Plentiful rack space for bags and books is available with four-legged chairs. Roll Stream smoothly into different classroom configurations with the addition of casters.

# Light neutrals palette

There are five light neutral hues in the overall Stream palette of 14 colors. Cloud is an elegant soft white that is complemented by two cool and two warm neutrals to coordinate with the tonal direction of the interior environment.

Cloud

Frost

Sand

Latte

Fog

## Dark neutrals palette

A rich Ink blue and deep purple Eggplant define the dark neutral palette. Shadow is a dark gray that was carefully balanced in the lab to work seamlessly with a spectrum of textile colors and patterns if the seat and/or back are upholstered. Night is a true deep black that is always in style. Match up any of the dark neutrals with a Black painted frame for a classic look.

Night

# Brights palette

Bring in the color with these five on-trend hues. We included a lively cactus green and a carrot orange that look like they were pulled fresh from the garden. Matching glide colors across the entire Stream palette bring a pop of color where you least expect it.

Carrot

Dijon

Cactus

Buzz Blue
